MOOREA FUND - EMERGING MARKETS EQUITY

A sub-fund of Moorea Fund

Class Retail EUR (RE) - LU1958314913

Moorea Fund is authorised in Luxembourg and is submitted to the supervision of the Luxembourg financial authority, Commission de Surveillance du Secteur Financier (CSSF).

Management company: Société Générale Private Wealth Management S.A.

Objectives and Investment Policy

Objectives

The Sub-Fund seeks to provide long term capital appreciation over a cycle (5 years) through investments in a diversified and sustainable portfolio of emerging markets equity securities enhanced by a strategic allocation to Chinese domestic equities (A-Shares). The selection of issuers combines financial criteria with extra-financial criteria, integrating environmental, social and governance criteria (ESG), in order to meet the long-term challenges of sustainable development while delivering financial performance.

Investment policy

The Sub-Fund will invest at least 70% of its assets in equities and equivalent securities of companies domiciled in or exercising the predominant part of their economic activities in emerging markets. Are considered as emerging markets, countries included in the MSCI Emerging Markets index. Investment may also be made in equities and equivalent securities of companies domiciled in, or exercising the predominant part of their economic activity in, developed markets that have significant business operations in emerging markets.

The portfolio will also tactically allocate to the Chinese domestic A-shares market between 0 up to 25% of its NAV. Direct investment in China will be done exclusively through the Shanghai and Shenzhen Connect platforms.

The portfolio will invest in approximately 40 to 80 stocks in Emerging Markets (including China A-Shares).

The maximum China country risk exposure in the Sub-Fund would be capped at 60% of the portfolio assets to ensure that China does not become an excessive part of the Sub-Fund risk.

Sustainable investment policy

The Sub-fund promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector. It takes into account ESG criteria in its investment process and applies the Sustainable investment policy of Société Générale Private Wealth Management S.A., available at: www.sgpwm.societegenerale.com.

The Investment Managers (IM) adopt a holistic approach to sustainable investing and addresses ESG factors throughout the investment process, including research, company engagement and portfolio construction. The IM incorporate a sector exclusion policy complemented by an ESG policy and outcome.

i. Sector exclusion policy

The Sub-Fund excludes of the investment universe companies that have significantly and repeatedly transgressed one of the 10 United Nations Global Compact principles, or having controversial activities such as thermal coal, chemical weapons etc., or being involved in one or more recent very severe controversies under the MSCI nomenclature (red flag). The IM also intend to limit direct investment in securities of issuers involved in: the production and retail sales of alcoholic products; the ownership or operation of gambling-related activities or facilities; the mining, production and supply activities related to nuclear power; the production of adult entertainment materials; unconventional oil and gas production; and, the production of conventional weapons. The assessment of the level of involvement in each activity may be based on percentage of revenue, a defined total revenue threshold, or any

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The investment process begins with the defining of a risk budget, in terms of volatility in order to remain compliant with the risk profile of the Sub-Fund.

Why is this share class in this category?

The Sub-Fund is at present situated at the level 6 of the synthetic indicator of risk, due to investment in a variety of securities of companies domiciled in or exercising the predominant part of their economic activities in Emerging Markets.

Historical data, such as are used in calculating the synthetic indicator, may not be reliable indication of the future risk profile of the Sub-Fund.

The risk and reward category shown is not guaranteed to remain unchanged and that the categorisation of the Sub-Fund may shift over time. The lowest category does not mean a risk-free investment.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

The Sub-Fund can be also exposed to the following risks which are not adequately taken into account by the indicators of risk above:

connection to a restricted activity regardless of the amount of revenue received.

ii. ESG policy and outcome

The IM aim at selecting companies that are either ESG Leaders ("Best in class") or ESG improvers ("Best effort") or Enablers (facilitating sustainability and transitions) allowing us to select the right business models to deliver sustainable returns.

Companies are evaluated on their ability to manage the risks and opportunities associated with ESG consistent business practices and their ESG risk and opportunity credentials (leadership and governance framework, ability to strategically manage longer-term issues surrounding ESG, potential impact this may have on a company's financials...) To undertake this analysis, the IM may use data provided by external ESG data providers, including MSCI, as well as ESG proprietary models and local intelligence and may undertake site visits.

As part of its investment policy, the Sub-Fund selects companies with a rating of B or higher as defined by MSCI's ESG nomenclature or another equivalent third party ESG data provider.

The Sub-Fund will have a premium ESG score vs the benchmark. The weighted average ESG rating of the portfolio aims to be higher than the ESG rating of its investment universe after eliminating at least 20% of the lowest rated securities from the investment universe.

The investment universe is composed by MSCI Emerging Market index plus 0 to 25 securities of companies out of the MSCI Emerging Market index. The invested securities of companies out of MSCI Emerging Markets have to be domiciled or exercising the predominant part of their economic activity in Emerging Markets.

In addition, the Investment Manager engages with companies to support improvement in their environmental, social and governance ("ESG") credentials and the Fund will invest in companies with sustainable business models which have a strong consideration for ESG risks and opportunities.
