The date of production of this KID is 01 February 2024.

WHAT IS THIS PRODUCT?

Type: This product is a share of a Sub-Fund of Moorea Fund

Term: The Fund has no maturity date but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objective: *Investment objective:* The Sub-Fund seeks to provide long term capital appreciation over a cycle (5 years) through investments in a diversified and sustainable portfolio of emerging markets equity securities enhanced by a strategic allocation to Chinese domestic equities (A-Shares). The selection of issuers combines financial criteria with extra-financial criteria, integrating ESG, in order to meet the long-term challenges of sustainable development while delivering financial performance.

Investment policy: The Sub-Fund will invest at least 70% of its assets in equities and equivalent securities of companies domiciled in or exercising the predominant part of their economic activities in emerging markets. Are considered as emerging markets, countries included in the MSCI Emerging Markets index. Investment may also be made in equities and equivalent securities of companies domiciled in, or exercising the predominant part of their economic activity in, developed markets that have significant business operations in emerging markets.

The portfolio will also tactically allocate to the Chinese domestic A-shares market between 0 up to 25% of its NAV. Direct investment in China will be done exclusively through the Shangai and Shenzen Connect platforms.

The portfolio will invest in approximately 40 to 80 stocks in Emerging Markets (including China A-Shares).

The maximum China country risk exposure in the Sub-Fund would be capped at 60% of the portfolio assets to ensure that China does not become an excessive part of the Sub-Fund risk.

SFDR Category: Article 8. The Investment Managers (IM) adopt a holistic approach to sustainable investing and addresses ESG factors throughout the investment process, including research, company engagement and portfolio construction. The IM incorporate a sector exclusion policy complemented by an ESG policy and outcome.

Benchmark: The Sub-Fund is actively managed with reference to the following benchmark: MSCI Emerging Markets. The benchmark is used both for performance comparison and as a universe from which to select securities.

Income: Accumulation share class, the dividend is reinvested.

Investment horizon: The risk and the reward of the product may vary depending on the expected holding period. We recommend holding this product at least for 5 years.

Currency: Your shares will be denominated in USD, the Fund's base currency.

Processing and redemption orders: You can buy and sell your shares daily.

Depositary: Société Générale Luxembourg

Intended Investor: This share class is intended for all investors. The fund is dedicated to investors who have neither financial expertise nor any specific knowledge to understand the Sub-Fund but nevertheless may bear total capital loss. It is suitable for investor who seeks growth of capital. Potential investors should have an investment horizon of at least 5 years.

WHAT ARE THE RISKS AND WHAT COULD I GET BACK IN RETURN?

Risk indicator

Lower Risk ← → Higher Risk

The risk indicator assumes you keep the product for 5 year(s). Selling before the end of this period significantly increases the risk of lower investment returns or a loss.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will

lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level. The risk category associated to this product was determined based on past observations, it is not guaranteed and can evolve in the future.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Fund prospectus.

WHAT HAPPENS IF Société Générale Private Wealth Management S.A. IS UNABLE TO PAY OUT?

Société Générale Private Wealth Management (SGPWM) is a management company licensed and supervised by the CSSF. SGPWM complies with organizational and operational rules, in particular as regards capital requirements. A separate pool of assets is invested and maintained for each Sub-Fund. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the management company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the management company or any delegated service provider were to fail or default.

WHAT ARE THE COSTS?

The Reduction in Yield ("RIY") shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures are estimates and may change in the future. You should note that these costs are paid by the Company whereas the return that you may receive will depend on the Company's share price performance. There is no direct link between the Company's share price and the costs that it pays.

Costs over time

	If you exit after 1 year	If you exit after 5 years
Total costs	\$840	\$2,500
Annual cost impact (*)	8.4% each year	4.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.7% before costs and -1.0% after costs.

Table 2: Composition of costs

One-off costs		If you exit after 1 year
