With regards to the portfolio construction, the portfolio management team employs norms and value-based exclusions as well. Examples of the exclusions (but not limited to them) are controversial weapons, gambling, adult entertainment, tobacco and thermal coal which is driven by revenue thresholds.

ii) ESG Integration policy

The Sub-Fund adopts a rating upgrade approach. To carry out this analysis, the Investment Manager uses data provided by external ESG providers, including MSCI, as well as proprietary ESG models.

The Sub-Fund follows a Best-in-Class approach by investing in issuers whose ESG rating is greater than or equal to BB (leading and average rating) on a scale of AAA to CCC (CCC being the worst) according to the MSCI ESG rating system.
