The investment process begins with the defining of a risk budget, in terms of volatility in order to remain compliant with the risk profile of the Sub-Fund.

### Why is this share class in this category?

The Sub-Fund is at present situated at the level 5 of the synthetic indicator of risk, because this strategy has shown medium fluctuations historically and this category is consistent with the risk limit of the Sub-Fund.

Due to the fact that the Sub-Fund does not invest in securities integrating Environmental, Social and Governance (ESG) criteria, the Investment Manager does not therefore apply the sustainable investment policy of Société Générale Private Wealth Management S.A., available on the following website: [www.sgpwm.societegenerale.com](http://www.sgpwm.societegenerale.com).
